

CITIZENSHIP AND CIVIC ENGAGEMENT

ACADEMIC

Grade 11/12

Curriculum Guide

CITIZENSHIP AND CIVIC ENGAGEMENT

Prerequisite: None

Course Description:

This course immerses learners in the perspectives and applications of community-action initiatives such as community engagement, solidarity, and citizenship, guided by the core values of human rights, social justice, empowerment and advocacy, gender equality, and participatory development. It enables learners to demonstrate a sense of shared identity and a commitment to contribute to the pursuit of the common good of their communities.

Elective: Academic

Time Allotment: 80 hours for one term

Content Standards:

- The learners critically analyze the relationship between citizenship, civil society organizations, and social movements, including the various perspectives on community, community action, and the foundational principles of community action initiatives.
- The learners evaluate the methodologies and multidisciplinary approaches to community action and involvement, specifically the effectiveness of these principles and strategies in addressing societal issues and promoting sustainable development through active participation.

Performance Standards:

- The learners develop an advocacy campaign that promotes empowered and active citizenship.
- The learners develop and implement a community action plan that addresses identified community issues, applying appropriate methodologies and approaches to promote active participation, sustainable development, and positive social change.

LEARNING COMPETENCY	CONTENT
I. Citizenship in Practice 1. Examine the meaning and importance of active and empowered citizenship 2. Analyze the electoral process, implications of different electoral systems on politics and governance, and the role of political parties in a democracy 3.
