

CREATIVE PRODUCTION AND PRESENTATION

ACADEMIC

Grade 12

Curriculum Guide

CREATIVE PRODUCTION AND PRESENTATION

Prerequisite: Any Arts Apprenticeship subject

Course Description:

This elective subject serves as a culminating project in which learners apply the artistic skills, knowledge, and professional practices they have developed throughout Senior High School. Through discipline-specific research and production processes, learners conceptualize, develop, and present a creative output within their chosen art discipline. Outputs may take the form of performances, exhibitions, screenings, publications, or other artistic presentations. The subject emphasizes contextualized art forms, artistic, educational, and cultural values, professional work ethics, and the use of emerging technologies in the creative industries.

As an application of learning from the electives, particularly arts apprenticeship, the learners engage in creative productions such as theatrical performances, film and video projects, visual arts exhibitions, and music or dance compositions.

Given the discipline-specific nature of the research component, production processes, and creative outputs, the subject shall be taught by teachers with appropriate specialization or demonstrated competency in the learners' chosen art discipline to ensure alignment with discipline-based standards, artistic practices, and industry expectations.

Elective: Academic

Time Allotment: 160 hours for one term

NOTE: When the lesson involves Traditional Cultural Expressions (TCEs), such as indigenous music, dance, visual designs, rituals, or other cultural practices, teachers must ensure that Free, Prior, and Informed Consent (FPIC) is obtained from the relevant Indigenous Cultural Communities/Indigenous Peoples (ICCs/IPs). This ensures that cultural materials are used with permission, respect, and proper acknowledgment of their source communities. Please see Appendix 3.

Content Standard:

- The learners demonstrate understanding of creative production processes, artistic documentation methods, and project management in developing and presenting discipline-specific creative works.

Performance Standard:

- The learners can apply practical skills through supervised hands-on activities that promote skill development, personal growth, and preparation for future career opportunities.

LEARNING COMPETENCIES	CONTENT
<i>The learners...</i> 1. propose discipline-specific creative productions grounded in artistic research and cultural contexts; <i>Note:</i> • <i>All learning competencies and content shall be implemented within a discipline-specific context aligned with the learner's chosen art form (e.g., music, dance, theater, media arts, visual arts, literary arts, and applied or traditional arts).</i> • <i>Documentation is embedded across all phases, not treated as a final step.</i>	I. Creative Research and Concept Development A. Artistic Inquiry and Ideation (Discipline-Specific) 1. Exploration of themes, concepts, and artistic questions 2. Study of references and influences B. Cultural and Audience Context 1. Analysis of cultural, social, or community context 2. Identification of target audience and purpose C. Concept and Proposal Development 1. Formulation of creative concept and artistic direction 2. Articulation of intent, message, and relevance 3. Preliminary description of format 4. Justification of concept based on research
2. plan collaborative and creative productions using industry-based processes within their chosen art forms;	II. Collaborative Planning and Design A. Discipline-specific preparations and collaborative explorations (ex. choreography, script writing, composition, storyboarding, curatorial plan) B. Roles and collaborative workflows

LEARNING COMPETENCIES	CONTENT
	C. Task distribution and workflow sequencing D. Resource management, budgeting, and scheduling E. Risk management and contingency planning F. Ethics and professional practices
3. execute discipline-specific creative productions using appropriate artistic, technical, and technological processes;	III. Creative Execution and Iteration A. Artistic development and prototyping B. Use of tools, media, and technologies C. Rehearsal, drafting, editing, and fabrication D. Feedback integration and refinement
4. present discipline-specific creative works for public engagement following professional standards;	IV. Public Presentation and Audience Engagement A. Modes of presentation (e.g., performance, exhibition, screening, publication, and digital platforms) B. Technical and aesthetic execution C. Audience engagement strategies D. Application of professional standards and protocols in presentation
5. document the creative production process and outputs using industry-standard formats within the chosen discipline; and	V. Documentation and Portfolio Development (Integrated Across Phases) A. Process documentation (e.g., journals, recordings, and drafts) B. Compilation of outputs (e.g., portfolio, production book, and manuscript) C. Production reports and digital archiving
6. evaluate discipline-specific creative productions through critique and reflective analyses.	VI. Critical Evaluation and Reflection A. Feedback and critique systems B. Evaluation of artistic and technical quality C. Reflective analysis of process and output

GLOSSARY

Artistic Inquiry - A systematic and reflective process of investigating ideas, themes, issues, and questions through artistic thinking and practice. It involves asking conceptual and aesthetic questions, exploring possibilities, and using research, observation, and experimentation as tools for artistic creation.

Arts Production- The creation of various forms such as music, theater arts, dance visual arts, media arts, traditional arts and literary arts.

Concept and Proposal Development - The process of clearly formulating and articulating a creative idea, including its artistic direction, intent, message, format, and justification. This stage transforms research and ideation into a structured concept or proposal that explains what the work is, why it matters, and how it will be realized.

Creative Execution and Iteration - The process of realizing a creative concept through active making, testing, and refinement, using appropriate tools, media, and technologies. It involves rehearsal, drafting, prototyping, feedback, and revision, recognizing that creative work develops through iterative cycles of practice, evaluation, and refinement, rather than through a single final attempt.

Creative Presentation – The process of showcasing, performing, or exhibiting an artistic work in ways that effectively communicates its meaning, aesthetic, and intent to an audience. It involves the strategic use of artistic and technical elements to enhance engagement, impact, and appreciation.

Creative Production - A process that includes production mounting in the performing arts, exhibition planning and creation in visual arts, media arts, and traditional arts, as well as literary folio compilation and publishing in literary arts.

Cultural and Audience Context - The analysis of the cultural, social, historical, and community factors that influence the creation and interpretation of an artwork, including the intended audience, purpose, and relevance of the creative work. This context guides artistic choices to ensure meaning, sensitivity, and effective communication.

Discipline-specific - An approach to learning, inquiry, and creative practice grounded in the unique methods, knowledge, skills, concepts, and standards of a particular art form or discipline, such as visual arts, music, dance, theater, media arts, and literary arts.

Discipline Specific Production Design - The creation of artistic components specific to a chosen art form, such as choreography, scripts, compositions, storyboards, curatorial plans, and related production elements.

Ideation - The creative process of generating, exploring, and developing ideas in response to an artistic inquiry. It includes brainstorming, visual mapping, sketching, and other imaginative strategies used to transform ideas into artistic concepts.

Modes of Presentation – The varied formats and platforms used to present creative work, such as performances, exhibitions, screenings, publications, and digital or online platforms. The selected mode influences how the audience perceives and interprets the work.

Proven Competency - Demonstrated, practice-based capability, and credibility in an art discipline, supported by relevant training, verifiable experience, professional practice, or recognized expertise. This ensures that learners receive authentic, standards-aligned, and industry-relevant instruction.

Public Presentation and Audience Engagement - The intentional sharing of creative work with an audience through appropriate presentation modes, while fostering interaction, understanding, participation, and meaningful connection between the work and its viewers, listeners, or participants. This phase emphasizes not only presentation of the creative output but also how it is experienced, ensuring that artistic intention, technical quality, aesthetic coherence, and professional standards support effective communication and engagement.

Appendix 1 Template for Schedule Production Plan

TIME FRAME	PERSON -IN-CHARGE	TASK
<i>Example: 3 months</i>	<i>Example: Artistic Director/ Producer/ Production Manager</i>	<i>Example: Select a show; determine exact performance dates; hire a director, order scripts. Obtain rights.</i>

Appendix 2 Template for Project Proposal (with guide and guide questions)

INITIAL PROPOSAL
Project Title/Project Holder <i>(The title should be brief, concise, and descriptive. It should reflect the project you want to do.)</i> <i>(Name of Group, Person In-Charge, Email and Contact Numbers);</i> <i>(In case of fund transfer, bank account details of the Group Grantee; in case there is no group bank account, kindly provide a letter of authorization signed by the group's officers to transfer the amount to the authorized personal bank account)</i>
Project Rationale and Description <i>(Why are you doing this project? What are your objectives and expected outputs? How would you describe your project? Where do you intend to do the project? What do you want to achieve by it? What do you expect to get out of it? Include the rationale and importance of the project. Use statistical information whenever necessary. Why do you want to do this project? What are the various activities included in the project, the target location, and the venues of mobile performance?)</i>
Production Details <i>(Include the production details (production process) and staffing (production, artistic and performers), production timeline and schedule</i>

of mounting and planned release or break date (first show should be within (date). When do you intend to start the project? When do you think you will finish the project? What schedule/deadlines do you plan to accomplish/ for the implementation of the project? Who are the people in-charge to accomplish these targets?)

Artistic treatment

Artistic Decisions

Performance/Production Concept/Platforms of Performance

(Indicate the expected impact or effect of the project in the school/organization/community and the target number of people who will benefit from it. Will your project help the school/organization/community where you will do it? How?

Project Cost

(How much will your project cost? How much financial assistance do you need? What are the items that you need to spend on and how much money will you allot for each item? Identify needs and resources for the project. Identify possible sources of funds and logistical support. Please include other sources of support for the project if any.)

APPENDIX 3:

FREE, PRIOR, AND INFORMED CONSENT (FPIC)
Pursuant to Republic Act No. 8371 (Indigenous Peoples' Rights Act of 1997) and
NCIP Administrative Order No. 3, Series of 2012 (Revised FPIC Guidelines)

I. GENERAL INFORMATION

Title of Project / Program / Activity: _____

Name of Proponent / Implementing Agency: _____

Type of Activity:

☐ Government Program / Project

☐ Research / Documentation

☐ Education / Curriculum / Training

☐ Others (specify): _____

Project Location:

Barangay: _____ Municipality/City: _____ Province: _____

Affected Indigenous Cultural Community / Indigenous Peoples (ICCs/IPs):

Ancestral Domain / Land Status:

☐ Covered by CADT/CALT (No.: _____)

☐ Within Ancestral Domain (Pending Claim)

☐ Adjacent Area Affecting ICCs/IPs

Project Duration: **From** _____ **to** _____

II. DETAILED DESCRIPTION OF THE PROJECT / ACTIVITY

The proponent intends to implement the above-mentioned project/activity with the following details:

a. Objectives:

b. Scope and Major Activities:

c. Target Participants / Beneficiaries:

d. Expected Outputs and Outcomes:

This project/activity is intended to support educational, cultural, social, or developmental goals while respecting the rights, traditions, and values of the concerned community. This project shall not involve publication through any means, such as the internet, digital media, books, textbooks, academic journals, etc. A separate agreement shall be made on this, if ever. News coverage and reporting shall be allowed.

III. INFORMATION DISCLOSURE

The following information was fully, clearly, and truthfully disclosed to the concerned ICCs/IPs in a language and manner understandable to them, consistent with their customary communication processes:

- Nature, scope, and purpose of the project/activity
- Alignment with DepEd/education mandates and IPRA provisions
- Roles and responsibilities of implementing organization and community
- Expected benefits to the ICCs/IPs
- Possible risks or cultural sensitivities
- Measures to ensure cultural integrity and protection of Indigenous Knowledge Systems and Practices (IKSPs)
- Data ownership, intellectual property rights, and use of outputs, possible media exposure
- Rights of the community:
 - To give or withhold consent
 - To set conditions
 - To withdraw consent at any stage

IV. FPIC CONSULTATION PROCESS

The FPIC process was undertaken prior to the implementation of the proposed project/activity and in accordance with:

- NCIP Administrative Order No. 3, Series of 2012
- Applicable customary laws, traditions, and decision-making systems of the concerned ICCs/IPs

The consultation process was characterized by the following FPIC principles:

- **FREE** – conducted without force, coercion, manipulation, or undue influence
- **PRIOR** – conducted sufficiently in advance of authorization and implementation
- **INFORMED** – based on complete, accurate, and culturally appropriate information

Dates and Venue(s) of Consultation: _____

V. COMMUNITY DECISION / CONSENSUS

After internal deliberation, consensus-building, and decision-making in accordance with customary laws and practices, the concerned ICCs/IPs collectively resolved to:

☐ **GRANT FREE, PRIOR, AND INFORMED CONSENT**

☐ **GRANT FPIC WITH CONDITIONS (see specifications below)**

☐ **WITHHOLD FPIC**

Conditions, Safeguards, or Recommendations (if any):

VI. STATEMENT OF CONSENT

We, the undersigned elders/leaders/authorized representatives of the above-named Indigenous Cultural Community / Indigenous Peoples, hereby certify that:

- 1. The proposed project/activity was fully explained to us.
- 2. We clearly understand its objectives, scope, benefits, and possible impacts.
- 3. Our decision was arrived at freely and collectively, following our customary laws and community processes.
- 4. This Free, Prior, and Informed Consent is granted without coercion, pressure, or misrepresentation.
- 5. We recognize our right to suspend or withdraw this consent should the terms and conditions be violated.

VII. SIGNATURES

A. For the Indigenous Cultural Community / Indigenous Peoples

Name of ICC/IP Community: _____

NAME	POSITION / ROLE	SIGNATURE	DATE

B. For the Project Proponent / Implementing Agency

Name of Authorized Representative: _____

Position / Title: _____

Signature: _____ **Date:** _____

C. NCIP FACILITATION / ATTESTATION (to be completed by NCIP)

This FPIC document forms part of the official FPIC process conducted under NCIP supervision and facilitation.

NCIP Community Development Officer (CDO): _____

Signature: _____ **Date:** _____

NCIP Regional Director / Authorized Officer: _____

Signature: _____ **Date:** _____

VIII. EFFECTIVITY

This FPIC shall take effect upon signing by all concerned parties and shall remain valid for the duration of the approved project/activity, subject to compliance with the agreed terms, conditions, and safeguards.

Executed this _____ day of _____, 20, at _____.
