

LEADERSHIP AND MANAGEMENT IN THE ARTS

ACADEMIC

Grade 11/12

Curriculum Guide

LEADERSHIP AND MANAGEMENT IN THE ARTS

Prerequisite: None

Course Description:

This course introduces the fundamental principles, processes, and applications of leadership and management in artistic productions and events. Learners engage in strategic planning, organization, resource management, implementation, and evaluation of arts productions within real-world contexts. Through collaborative and experiential learning, the course develops competencies in decision-making, coordination, communication, budgeting, and problem-solving that are essential to arts administration and the practice of the creative industries.

Elective: Academic

Time Allotment: 80 hours for one term

Content Standard:

- The learners demonstrate understanding of leadership principles, management functions, and production processes in planning, organizing, executing, and evaluating artistic productions and events.

Performance Standard:

- The learners effectively plan, organize, implement, and evaluate artistic productions and events through the application of leadership principles, strategic planning, resource management, and assessment processes.

LEARNING COMPETENCIES	CONTENT
<i>The learners...</i> 1. analyze the key functions of management and their application in arts organizations, productions, and events;	Management Basics A. Definition B. Objectives C. Functions 1. Planning a. Strategic management concepts in situation analysis internal and external 2. Organizing 3. Staffing 4. Directing 5. Controlling D. Leadership Roles and Functions
2. assess the internal and external conditions influencing the planning and execution of an artistic production;	Arts Production A. Examples of Arts Productions 1. Contextualizing arts production within environment B. Situational Analysis 1. The internal conditions of production a. Human resources and talents to hire b. Time c. Facilities and equipment d. Funds e. Technology 2. The external conditions of production a. Stakeholders b. Audience research c. Location 3. Socio-political-economic conditions

LEARNING COMPETENCIES	CONTENT
3. create a production management plan that outlines objectives, resource allocation, staffing, logistics, and evaluation strategies;	Production Brief 1. Rationale and objectives (S.M.A.R.T.) 2. Strategies (activities, steps, and tasks) 3. Setting targets and times 4. Production staff (structure) a. Vertically hierarchy b. Horizontal working and communication relationship 5. Output 6. Production costs and budget allocation 7. Risk management: Safety and security in the production site 8. Evaluation a. The importance of evaluating a production b. Indicators of success in a production C. Production Management Plan 1. Project title 2. Date, time, and venue 3. Artists and talents 4. Set design 5. Materials and resources needed 6. Technical requirements 7. Logistics 8. Communications 9. Budget and funding (include expenses: costume, venue styling, stage design, market and promotion, ticket design, etc.)

LEARNING COMPETENCIES	CONTENT
4. apply management skills and techniques to execute the production plan; and	A. Production Meeting 1. Creation of a production team 2. Assignment of roles and responsibilities 3. Dissemination of Tasks 4. Consideration of Production Requirements B. Production Implementation
5. evaluate the production by identifying its strengths and areas for improvement.	A. Evaluation of Production Resources and Processes: 1. Project title 2. Date, time, and venue 3. Artists and talents 4. Set design 5. Materials and resources Needed 6. Technical requirements 7. Logistics 8. Communications 9. Budget and funding B. Challenges of Production Management Execution 1. Promotion and marketing 2. Leadership roles and functions C. Arts Management in Organizations

GLOSSARY

<i>Arts Management</i>	the process of effectively managing people, resources, and systems in the arts
<i>Arts Production</i>	the process of planning, organizing, creating, and presenting artistic works, performances, exhibitions, or events through the coordinated use of creative, technical, and managerial resources.
