

CONTEMPORARY MARKETING

ACADEMIC

Grade 11/12

Curriculum Guide

CONTEMPORARY MARKETING

Prerequisites: Business 1 (Basic Accounting) and Introduction to Organization and Management

Course Description:

This course equips learners with a strong foundation in marketing, integrating traditional principles and digital platform strategies. It emphasizes customer-centric, data-driven decision-making, while teaching learners to analyze consumer behavior, create effective campaigns, and incorporate sustainable ethical practices. By the end of the course, learners will be able to present a marketing plan that aligns with business goals, targets the right audience, and employs effective strategies.

Elective: Academic

Time Allotment: 80 hours for one term

Content Standards

- The learners demonstrate understanding of the fundamental marketing principles of both traditional and contemporary approaches.
- The learners demonstrate an understanding of how to integrate digital marketing tools into the 7Ps of the marketing mix, utilize marketing analytics for data-driven decision-making, practice sustainable and ethical marketing, and comprehend the marketing planning process.

Performance Standards

- Learners conduct a market analysis and apply customer-centric strategies to analyze consumer behavior, assess market opportunities, and create a targeted marketing strategy with a unique selling proposition.
- Learners present a marketing plan for a business, integrating digital tools, the 7Ps of the marketing mix, analytics, and sustainable practices.
