

ENTREPRENEURSHIP

ACADEMIC

Grade 11/12

Curriculum Guide

ENTREPRENEURSHIP

Prerequisite: None

Course Description:

This course introduces learners to the fundamental concepts and skills development in entrepreneurship. It focuses on identifying business opportunities, developing innovative solutions, and creating feasible business ideas. By the end of the course, learners will simulate and evaluate a business enterprise model that addresses community needs.

Elective: Academic

Time Allotment: 80 hours for one term

Content Standards

- The learners demonstrate understanding of the key concepts, principles, and core competencies in entrepreneurship including the planning and resourcing of business enterprises.
- The learners demonstrate understanding of the processes of implementation, management, legalization, and performance assessment of a business enterprise.

Performance Standards

- Learners develop a proposal for a product or service to present to potential investors.
- Learners simulate a business plan in an identified market environment and assess the outcomes of the business performance.
