LEARNING COMPETENCIES	CONTENT
6. evaluate sports events by considering the roles of officiating, coaching, and activity management.	Event Evaluation and Improvement - Assessing Event Outcomes Through Officiating Performance and Coaching Effectiveness - Gathering Feedback from Participants, Officials, and Coaches - Identifying Areas for Improvement in Future Event Planning and Execution Post-Event Evaluation

GLOSSARY

Activity Management	The process of planning, organizing, directing, and controlling activities to achieve organizational objectives efficiently. It includes setting goals, allocating resources, and monitoring progress to ensure the effective attainment of desired outcome
Coordination	The alignment of actions, resources, and stakeholders to achieve shared goals. It ensures collaboration among key players, reduces duplication of efforts, and facilitates timely adjustments to address challenges.
Evaluation	The systematic process of determining the effectiveness, relevance, or value of an activity, policy, or program. It assesses the achievement of objectives, implementation processes, and sustainability of results.
Evaluation Tools	Methods such as performance indicators, surveys, focus groups, and participatory approaches used to collect and analyze data for tracking progress and assessing impact.
Levels of Competition	Categories of sports competition ranging from local leagues and amateur events to national and international competitions, such as the Olympics, that represent varying levels of challenge and performance requirements.
Logistics	The detailed coordination and management of resources, activities, and processes necessary to organize and run sports competitions successfully.

Program Design	The process of creating sports programs and activities that address the needs and interests of participants.
Program Matrix	A structured framework outlining the components, activities, tasks, responsible persons, resources, and timelines of a program.
Scheduling	The process of arranging dates, times, and locations for sports activities while ensuring that conflicts with other events or facilities are avoided.
Structuring Events	The process of organizing events according to specific formats, guidelines, and schedules to ensure smooth implementation.
Tournament Format	A set of rules and procedures that determine how participants or teams are matched and how winners are determined in a competition.
Tournament	A competitive event in which participants or teams compete in a series of games or matches according to established rules.
